The stremously-expressed wish of colored delegates for the addition of an anti-lynching declaration was willingly granted. During the preparation of the platform in committee, some of the Western members urged the policy of saying as Hitle as possible about the question of the "sound money" feature of the St. Louis platform, but the resolutions heartily endorsed that platform in all respects. The resolutions commend the President and Congress in sending a Monetary Commission to European nations; for inaugurating measures for the annexation of Hawaii, and for an attitude on the Cuban matter that has tended to lessen Spanish atrocities in that island. They urge upon Congress the earliest possible passage of a discriminating duty measure to protect American shipping.

A Negro Tries to Assault a Lady in Broad Daylight.

FRIGHTENED AWAY AND ESCAPED.

Miss Russell, of Norfolk, Has a Narrow Escape from Death as Well, for an Express Train Come Dashing by Soon Afterwards,

A most flagrant and daring attempt at assault by a negro miscreant upon a fight yesterday, near Chestnut Hill, one of Richmond's most delightful suburbs.

To this attempted atrocious crime of felonious assault might have been added Railway, and the time, that of the passing of an express train, the would-be victim narrowly escaping destruction by being upon the track.

This is the story of a hold and desperate villain's effort to commit the crime for which so many of his race have paid the lustant penalty of violent death,

Miss Nina Russell and her sister, Moss Priscilla Russell, are two young ladies of Noriols, who are nieces of Mrs.-D. A. Sanderlin, living in Henrico county, about two miles from Richmond, near the line

of the Chesapeake and Ohio railway.

These young ladies came to Richmond yesterday morning to visit their aunt, and took the opportunity for coming afforded them by the excursion from folk, run over the Norfolk and Western railway by the Freemason Street Baptist church of Norfolk.

Mr. T. J. Sanderlin, their cousin, met them at the Byrd-Street Station in Rich-mond with his sister, Miss Clara Sander-

track towards the laundry, which is between these tracks and the village of Chestnut Hill.

This point is about two miles from the Broad-Street Station of the Chesapeaks and Ohlo, and one mile from the Richmond Locomotive and Machine Works.

The story is best taken up now in the words of the attempted victim, Miss Nina Russell, upon whom a Times man called last evening at the residence of Mr. Sanderlin.

Mr. Sanderlin was first seen at his laundry, and directed the reporter to his

MISS RUSSELL'S STORY.

Miss Russell, who was seen with her cousins, Miss Clara Sanderlin and Mr. T. J. Sanderlin, told her story briefly, and impressively, and in a modest manner. After telling of the coming of herself and sister from Norfolk, where they live in Ghent, a suburb of that city, at the corner of Duke street and Franklin ave-nue, to visit their aunt, Miss Sanderlin, here, Miss Russell said:

"It was a terrible experience and I hope I shall never have such a shock again.

My aunt, Mrs. Sanderlin, my sister, Priscilla, and myself were walking from the house to my uncle's laundry and we took the railroad track, to save walking around the road.

"Just before we reached a point on the track opposite the laundry, we noticed a negro man sitting on the ties of the

the First street bridge, and here he lost him.

"My left arm is bruised and sore from my falling upon it in the struggle, but otherwise I have no injuries.

Miss Russell told her story in the presence of Miss Sanderlin, who corroborated her in all its details, adding the fact that Miss Russell had jumped up from the track just as the train due in Richmond at 2:15 had come fearing along.

Had she fainted or lain on the track a moment or two longer she must have been killed, for by reason of a curve near the spot the train could not have been stopped in time to avoid running over her as the engineer could not have seen her.

As she remembered him, he was dressed in dark clothes, with outing shirt, and a sort of turned up soft hat on.

Indignation was universal on Chestmut Hill last night at this occurrence, and expressions that were heard from citizens of that locality showed that there would have been no mercy shown this wretch had he been caught and identified.

RICHMOND, VA., THURSDAY, JULY 15, 1897.

Mr. D. A. Sanderlin and his son, Mr. T. J. Sanderlin, came running and armed from their laundry to the access of the outrage on hearing the ladies cries, and there is no doubt that the negro would have paid with his life for his crime had they caught him.

All of the city police and the special county police besides the sheriff and constables of Henrico, have been notified of this occurrence, and no pains will be spared to capture the negro.

Mr. D. A. Sanderlin said last night that something must be done to protect the ladies of that vicinity, and that he hoped the Governor would offer a special reward for the capture of this man.

THE HENLEY REGARTA.

to Win a Race. HENLEY-ON-THAMES, July 14.—Amid beautiful weather, although a stiff wind blew at intervals from the Berkshire shore, the Henly regatta of 1897 began to day. The crowd on the banks was not so large nor as demonstrative as usual, but the celebrated stretch of a mile and a quarter, just below Henley Bridge, which is the course of the regatta, was the scene of some admirable racing. From the American point of view, the principle interest centered in the performances of Dr. W. C. S. McDowell, of the Delaware Boat Club, of Chicago, and the Winnipeg Rowing Club, of Canada.

Mr. McDowell justified the faith of his backers by beating Hon. E. A. The report characterizes it a "mockery of a trial." The affidavits of the parties are cited to show that they were co-creed into Spanish waters, in which case they were not amenable to Spanish jurisdiction. They were not subject to piracy, and intended no act of depredation on the high seas, nor were they subject to the Spanish authorities on account.

It is now fourteen months since they were arested, during which time they have been held in the Cabanus fortresses as prisoners. Melton and Labords are unquestionably citizens of the United States. Gilder is a British subject, but he was a satior upon an American vesses when taken, was acting as its mate, and it is the opinion of your committee that he is entitled to be protected by this government. He was serving under the flag, and he is entitled to be protected

"In our opinion, these acts of delay of justice and of the infliction of injustice, vitiate and make void any right which Spain had in the beginning of this transaction to proceed criminally against any of these men. This government should demand that they be set at liberty and that the Competitor be restored to her owners, as there is no evidence that the owner knew anything about the diver-gence of the vessel from its regular voy-
